
HSCB: News Update

Revised 4LSCB protocols

Hampshire Safeguarding Children Board is pleased to announce that revised versions of the following 4LSCB protocols are now available on the HSCB website:

- Maternity and Childrens Services unborn babies safeguarding protocol
- Protocol for the management of actual or suspected bruising in infants who are not independently mobile
- Joint Working Protocol - Safeguarding children and young people whose parents/carers have problems with: mental health, substance misuse, learning disability and emotional or psychological distress

These protocols are relevant to all staff who work or come into contact with children and their families. They exist to compliment the 4LSCB safeguarding procedures providing a further level of guidance on the response to certain case scenarios.

Please ensure that you and any staff that you are responsible for are aware of these protocols and that practice complies with guidance outlined within the protocol.
