

Services for Young Children

Blog article

I am contacting you to let you know that HMRC is providing advice for Childminders. This is delivered through online presentations (webinars) that are pre-recorded or live. Feedback has shown that customers find these products very helpful.

Pre-recorded webinars last 30 minutes and are available for your customers to view at any time. Live webinars last for about an hour and are interactive, giving the opportunity to ask questions and get answers from the HMRC webinar host.

The webinar covers registering for self-employment, National Insurance, allowable expenses and keeping records. The host will also give links and advice on where to get further help.

Childminders can use the links below to register for a live webinar. They will need to provide their name and e-mail address and will then be sent a link to join their chosen webinar. They will require internet access and can view them from a computer, smart phone or tablet. Headphones are recommended and customers are advised to log in 10-15 minutes before the presentation.

I am attaching the invitations below for next month's live webinars and would be grateful if you could pass these on to your customers as they will provide additional help and support for them to manage their tax affairs.

Thursday 10 April 2014 7.30pm <https://www3.gotomeeting.com/register/225154630>

Tuesday 29 April 2014 7.30pm <https://www3.gotomeeting.com/register/566249366>

We can also arrange a live webinar for an invited group at a date and time to suit you. Please get in touch if you would like more information.
